### Profile

Hard-working web developer who is passionate about creating elegant web solutions in the least amount of time with previous experience in developing an ecommerce web app, customer web portal and a documentary website. I'm also passionate about software architecture and cloud computing. Regular attendee of web developer meetups. I'm currently seeking an internship and a position of a full-stack web developer that meets my skills.

### Web Development Summary

### Education

2020-2021

Graduated from Tanta University, Faculty of Engineering, Computer Science

- Followed my passion in a core of prototyping and cloud computing classes.
- Excelled in user experience and user interfaces.

Graduation Project grade: Excellent

Graduation Project link: <https://youdontknowegypt.web.app/>

I have worked in the front-end part in the graduation project, and I have created with photoshop the icon of the project and most of icons used on it

### Experience

Freelance  
Web  
Developer

I have worked in some projects with my teammates but in the front-end part, which helped me to know more about web development and helped me to gain experience in that field.
